John Zacharias
CIMCO Calgary

Dear John,

It is my pleasure in having the opportunity to supply CIMCO Calgary with a letter of reference for their many years of service at the Olympic Oval. From the inception of the Olympic Oval prior to the 1988 Olympic Games in Calgary, CIMCO was a key contributor with the mechanical and refrigeration needs that have formed the foundation the Oval can rest it's many success upon. The Olympic Oval has since carried CIMCO Refrigeration as the prime mechanical operator of the refrigeration system and with their support the Oval has been rewarded with many years of successful operations.

I look forward to the future with CIMCO continuing as the prime mechanical contractor for the Olympic Oval. CIMCO has proven over the years that as a company they are one of the best Refrigeration Contractors in the business starting from the ground up, as their service technicians are extremely competent and reliable to the professionalism received during periodic management meetings. I would not hesitate to make a positive statement on the level of service that we have received from CIMCO at the Olympic Oval.

Sincerely,

Kameron Kiland
Operation Manager
